Odonate have been created by Bio Footwear Company in order to develop a line for the Tourism professional. We propose a range of single use product that respect the environment

## Our Products, Our concept

- 100% Natural fibers
- 100% Biodegradable
- 100% Compostable

Conform to the European standard EN13432 for the biodegradability of products without any impact on the environment.

The fibers we are using have exceptional properties:

- Extrem comfort
- Lightness feeling
- Natural anti-bacterial action
- Excellent permeability
